

COVID-19 Resources Support: Medical Office/Outpatient

The COVID-19 pandemic is creating unprecedented conditions for all of us. We sincerely appreciate all the work that you are doing to maintain the safety and well-being of your patients and employees and trust that you and your loved ones remain healthy and safe.

We understand how important your business is to you and the unique financial and economic stresses that you may be facing. We are actively engaged with policymakers in Washington D.C. as they work on relief efforts and want to be a resource for you to help ensure that you have access to information and any relevant government programs that may provide support at this time.

As we understand it, the stimulus measures that are expected to be signed by the Administration today will provide significant support to small businesses through agencies such as the Small Business Administration (and others), including resources for the payment of rent and other expenses to offset the impact of COVID-19. In addition, the stimulus also provides significant, direct aid for the healthcare industry and providers.

Once the final bill is available, we will immediately review to determine how it might be helpful to you and other healthcare providers. In the interim, we will update you with relevant information as it becomes available.

Now, more than ever, we appreciate our partnership and want to help you navigate this volatile period and get you back to the business of delivering exceptional care to your patients as soon as possible.
