

CARES Act Resources Support: Medical Office/Outpatient

March 31, 2020

Dear Tenants:

We wanted to follow up on the communication we sent last weekend indicating that support under the [SBA Paycheck Protection Program](#) (PPP) was still in the implementation process.

Today, the US Treasury distributed the application for PPP and announced it would begin accepting applications on Friday, April 3, 2020.

A [sample application](#) is available now to help you prepare and we have attached a fact sheet that was created with additional information. **We strongly encourage you to begin your application now with the aim to submit it on Friday morning (via an SBA Lender), as we anticipate high demand for this program.**

We are continuing to update our [online portal](#) with relevant information as it becomes available, and please continue to share your questions with us via covidsupport@ventasreit.com.
